To: Honorable Mayor and City Council

From: Wes Richter, Public Works Director

Re: Purchase of 2020 Kubota M7060HD 4x4 Tractor

Date: February 3, 2020

BACKGROUND

Coweta Public Works previously utilized a Massey Ferguson 471 tractor to mow the highway right of ways. The Massey Ferguson was purchased in 2004 and is now beyond repair. We would like to purchase a 2020 Kubota M7060HD 4x4 Tractor and a Vrisimo Mighty Max C196 Flail Mower to replace the inoperable tractor.

BENEFITS

The purchase of the Kubota M7060HD and Flail Mower will create the ability to mow the highway right of ways in a more time efficient manner by mowing an 8-foot pass rather than a 4 to 5-foot pass. This method will also be safer than the current practice. In addition, the Kubota M7060HD is large enough to utilize other implements and attachments. For example, the side boom mower that we already own but have not been able to use since the Massey was deemed unrepairable could be put back into service.

COSTS

Utilizing the State bid contract, I contacted Stewart Martin Kubota and received a quote for \$36,229.87, which includes a \$1,500.00 trade in for the Massey Ferguson 471. This quote is for the purchase of a 2020 Kubota M7060HD Tractor and a Vrisimo Mighty Max C196 Flail Mower. Funds for this purchase would come from the Street Department Capital Outlay Budget, 12-5404-015. The current budget is \$35,000 which, will be supplemented with a transfer from another account to cover the difference of \$1,229.87.

STAFF RECOMMENDATION

Staff recommends approval of the purchase of the 2020 Kubota M7060HD and the Vrisimo Mighty Max C196 Flail Mower with a combined price not to exceed \$36,229.87 from Stewart Martin Kubota.
