Coweta City Council
310 Broadway
Coweta, OK 74429

Dear Councilors,

Wagoner County is currently conducting work on South 353rd East Avenue between State Highway 51 and 161st Street. At this location there exists both County and City jurisdictional area; the latter being the Coweta sports complex.

SCOPE OF WORK

- 1) Drainage and grading (ditch correction, clean-out, and culvert replacement)
- 2) Road widening where feasible
- 3) Resurfacing to include 0.5 miles of asphalt surfacing

The County will be providing all labor and equipment necessary to complete the scope of work and would like to partner with the City of Coweta on 50% of the cost of asphalt for a 3.5" lift of laid asphalt for 0.5 miles (in front of the Coweta sports complex).

ESTIMATE MATERIALS COST (0.5 MILES ASPHALT: 1.0 MILES GRAVEL): \$220,000

LABOR ESTIMATE: 1,000 MAN HOURS

REQUESTED CITY CONTRIBUTION (50% OF ASPHALT COST): \$40,000

We believe this is a great partner project because it will support City of Coweta generated traffic and will support unincorporated county residents in the area.

Thank you for your consideration of this project partnership. Should you have any questions please do not hesitate to contact me at rcooper@wagonercounty.ok.gov and by phone at (918) 485-7979.

Sincerely,

A handwritten signature in black ink, appearing to read "Rachael Cooper".
