

The City of Coweta has hired a contractor to begin collecting curbside storm debris beginning Tuesday, September 6th. Therefore, the Coweta Sports Complex will be closed to citizens starting at 5 pm on Friday, September 2nd in preparations for the final disposal stage. Please note that the contractor will only be picking up storm-related tree debris that is placed at the curb and any debris not placed along the curb will not be removed. Please have your tree limbs cut into four (4) foot lengths or smaller since anything larger than this will not be accepted. Furthermore, the contractor will not be allowed to come onto private property to remove the debris so it is very important to have everything placed at the edge of the curb. There will only be one pass made through each neighborhood, so it is imperative to have your storm debris out by September 6th. Please contact the Coweta Public Works Authority at 918-486-8073 should you have any questions regarding this matter. Thank you.
